

## ESMA Aviation Academy is proud to welcome 14 new students coming from The Civil Aviation Flight University of China

ESMA Aviation Academy is delighted welcome 14 students coming from the biggest aeronautical training centre in China: The Civil Aviation University of China (CAFUC).

This arrival has been realized in accordance with the Memorandum of Understanding between CAFUC and ESMA signed on November, 25th 2009.

Students will reside at the modern Aerocampus accommodation centre of Montpellier and will be trained during 1-year in order to get the Airline Transport Pilot certificate (JAA and CAAC). At the end of this period, they will be ready for flying for the largest airlines in China.

*The CAFUC is a leading aeronautics school in China and is recognized worldwide. It is the reference for the aeronautics training and its experience is unique. Today, specializing in the training of airline pilots, flight attendants, air traffic controllers and aeronautics engineers, it occupies 9 sites in China and owns a fleet of 236 aircraft, 35 flight simulators and achieves more than 200 000 flight hours annually.*

*ESMA Aviation Academy has a unique business model based on multi disciplinary training school covering the 4 main sectors of aviation: airline pilot, cabin crew, maintenance engineer, airport ground staff and flight ops. As strategic partner of Airbus, ATR and EADS, ESMA is also developing its expertise to conduct international projects, which enabled ESMA to create 2 joint ventures in Vietnam and China. ESMA employs 140 people on 2 main sites in Montpellier and Paris. More than 2.500 training sessions are conducted yearly by more than 100 highly qualified instructors. ESMA operates a fleet of 23 aircraft, 4 flight training devices and realized 16.000 flight hours in 2009.*
